

CUT IT OFF (C) Dreamfield

All the girls have the same long hair

I wanna cut it off, not gonna fall in love

They all look the same,with their make-up on

Don't wanna see them at all, they'll never turn me on

I wanna cut their hair

I wanna keep it short

Don't let it hang down

Don't like the length of it

It's gonna make me sick

Don't wanna be around

It's hanging in their face

Don't want their big embrace

And when it gets too wet

Don't want it in my bed

Put it behind the ears

Don't like the look she wears

Their eyes are black and big

It's gonna make me sick

They want it blond or black

Just longer than their neck

Some have it down their back

They wanna look perfect

But when they cut it off

They are gonna be mad

They feel better off fat

Well, that's a fact
