

Welcome to our party

© Rico van Hooren

Welcome to our party, we're glad you came along
Let's have a good time, we hope you like our songs
Please forget your sorrows, and sing along with us
So lean back, relax and enjoy our show

We take you to our land, where the music never stops
We tell about our dreams, where stories never end
We lead you through the forest and take you by the hand
So let's take a walk, and come to our land

Welcome to our party, we're glad you came along
Let's have a good time, we hope you like our songs
Please forget your sorrows, and sing along with us
So lean back, relax and enjoy our show

We play on different instruments, and tell you all about it
We talk about ourselves, and how it all started
It takes a lot of time, before we're satisfied
Because we don't stop, until it sounds right

Welcome to our party, we're glad you came along
Let's have a good time, we hope you like our songs
Please forget your sorrows, and sing along with us
So lean back, relax enjoy our show
